NEW!

People who have been in close contact with someone who has tested positive with COVID-19 can now get a PCR test during their 10 day isolation period, whether or not they have symptoms. Around 1 in 5 people who have been in close contact with a person with COVID-19 will go on to have COVID-19 themselves, around 1 in 3 of them will have no symptoms but can still spread the virus. **Even if you test negative, you will still need to complete your 10-day self-isolation period, because the virus can incubate for that time.**

Please remember to always keep us updated with any change of contact details to ensure you always receive communication from us by text/email. You can do this yourself by going to the Pupil Asset Website.
