Remote Education Statement

There may be times when the school needs to provide remote education in the event of a school closure. Such circumstances might include severe weather or public health emergencies. There may also be exceptional circumstances when a child is unable to attend school and therefore education might be provided remotely. A pupil needing to self-isolate for example might be such a reason.

In both circumstances, we will aim to as much as is possible, teach broadly the same curriculum as detailed in our long-term plans shared on our school curriculum website.

In the event of a full or partial school closure

Days 1 & 2- Tasks and learning will initially be provided to parents via Class Dojo, with any resources and links sent through. The Oak National Academy will be referenced as a particularly useful resource with video support.

Days 3 onwards- In the event of the school being closed for longer, Google Meet will be used to provide live teaching with your child's teacher, alongside the sharing of resources. Google Classroom will be used in KS2 for pupils to share work completed. In KS1, Purple Mash will be used for pupils to complete and share work.

Log in details will be re-shared with parents upon such an eventually but both the Google Education Suite and Purple Mash platforms will be familiar to the pupils as they are used as part of our regular curriculum.

Teachers will aim to give feedback as they usually would by commenting on pupils' work, and resources will be tailored and adapted where necessary so that all pupils can access the learning and achieve.

Guidelines on the length and anticipated amount of time needed to be taken to complete the tasks set will be shared with parents and pupils at the time.

Online Safety

In the event of prolonged school closures lasting more than 2 days, pupils will be provided with additional e-safety lessons and guidance to ensure they are ready and prepared to access online remote learning safely. This learning will be provided by your child's class teacher who will monitor your child's participation, engagement, and welfare throughout the period of school closure.

Individual Remote Learning

There may be times when remote learning may be necessary for individual pupils. In such cases, a bespoke package will be discussed and implemented in agreement with your child's class teacher alongside the school's leadership team, including the headteacher.
